

BMUH 591 - Special Studies

Course Code:	BMUH -591
UTAA Credit (Theoretical-Laboratory hours/week):	0(0-0)
ECTS Credit:	0-0
Department:	Electrical and Computer Engineering
Language of Instruction:	English
Level of Study:	Graduate
Offered Semester:	Fall and Spring Semesters.

Course Objectives

The purpose of this course is to commence the master's degree thesis in accord with scientific principles.

Course Content

1. Determination of the thesis subject
2. Carrying out literature survey on the thesis subject domestically and internationally
3. Planning out the whole of research aspects
4. Method development
5. Studies on the validity and reliability of the method
6. Application of the method and assessment of its findings
7. Preparation of report(s) on research results

Course Learning Outcomes

- 1-Do a literature survey relating to the thesis subject
- 2-Organize information supported by literature, develop data gathering tool
- 3-Collect research data
- 4-Analyze data
- 5-Develop a method
- 6-Arrange table(s) involving research findings and interpret them
- 7-Infer results from research findings and make suggestions
- 8-Arrange a report from research and defend the research
