

# BMUH 598 Seminar

<b>Course Code:</b>	BMUH 598
<b>UTAA Credit (Theoretical-Laboratory hours/week):</b>	0(0-0)
<b>ECTS Credit:</b>	12.0
<b>Department:</b>	Electrical and Computer Engineering
<b>Language of Instruction:</b>	English
<b>Level of Study:</b>	Graduate
<b>Offered Semester:</b>	Fall and Spring Semesters.

## Course Objectives

The goal of this course is - To advance students technical skills in preparing and giving seminars. - To let students share their latest findings on research and prepare the academic discussion environment for proper feedback receiving

## Course Content

Various research topics in computer engineering.

## Course Learning Outcomes

- 1-Make proposals about academic subjects
- 2-Make multidisciplinary research
- 3-Report their preparations and researches
- 4-Gain experience by observing speakers and trying in front of the community to share knowledge
- 5-Develop their written and oral communication skills
